

The star tool for a child's eating skills

Instruction:

A star is used to clarify aspects related to the child's eating

What is the child's behavior like at mealtimes at the moment?

With the help of the star, it is possible to notice the child's strengths and learning and the need for support.

Circle the number, which describes the child's eating skills on a scale of 5 = does well / 1 = requires still practice.

Which topic needs you positive attention?

The child's strengths and interests related to eating:
